

COVID-19 LOBBY CAPACITY

Dear Tumblemania Parents,

We are having trouble maintaining our lobby within the maximum capacity permitted by current state and county regulations and orders. The maximum capacity permitted for our lobby is 10 individuals. This count includes all ages. The regulations and orders are being enforced by the county and the consequences are severe.

I would like to please ask that everyone help me and work together in keeping the lobby at our maximum capacity of 10 total individuals. I would very much like to keep the lobby open so that you as parents are able to have a break, enjoy watching your children in class, visit, and have a bit of "normalcy". I am sorry that our overflow seating on the side patio has not been possible due to the weather. Hopefully this will be more feasible as we move into September and October.

When you enter the lobby, please count to see if the lobby is at maximum capacity or if there is room for you to stay. There are only 10 chairs available and the chairs are spaced according to the regulations. If the lobby is full, I ask that you please wait outside until a space becomes available. I would also ask that everyone please be mindful of others, and limit the number of family members you are bringing to class each week.

While this lobby is not the family environment that we all know and love, it is the environment we need right now to keep all of our families safe. We are highly invested in the health and well-being of your children and are working very hard to navigate COVID-19 as best as possible. I greatly appreciate your support and understanding.

Thank you so much,
Marci
